EXCEPTIONAL SOLUTIONS TO ENHANCE YOUR SMILE... AND YOUR LIFE

COSMETIC CDA ASSOCIATES

Exceptional smile solutions that enhance your life

THE DENTAL EXPERIENCE OF A LIFETIME

You already know that all dentists are not the same. Many of our current patients came to us after prior dental experiences that were less-than-satisfactory. They chose us for our stellar reputation and results. Among the top-rated dentists in Houston, our cosmetic dentists have been widely recognized for their exquisite dentistry.

We have been featured in the *Houston Chronicle*, *Texas Monthly*, *Houston Health and Fitness*, *Inside Houston Magazine* and many professional dental publications. Our work has been featured on FOX News, KPRC and nationally on CNN with Jeanie Mose. We were the official dentists for the Miss Texas USA pageant for 15 years. Many Miss USA winners and one Miss Universe winner have trusted our cosmetic dentists to create and maintain their glamorous, captivating smiles. In addition, many Houston media personalities, whose smiles are a major asset to their careers, have trusted us as their dentists.

How You Are Treated Makes All the Difference

With all our media accolades, what patients enjoy most about seeing us is that we actually take our time with them, answering all their questions and concerns, and never recommending unnecessary procedures. We treat our patients like family, value loyalty and enjoy having meaningful relationships with them. They love our warm, caring, supportive staff, most of whom have been with us for 20 to 30 years going above and beyond for the people who entrust us with their oral health and their smiles – people like you.

People love the convenience and skill of our in-house dental lab. As a former lab technician, Dr. Davis pioneered techniques for repairing and fabricating beautiful veneers without grinding away natural teeth. Many dental labs make crowns and veneers too thick, which necessitates more grinding by the dentist and damages the natural structure of your teeth.

The Latest Technology and Smile Enhancement

Even though we have served the community since 1974, we use today's most technologically advanced dental lasers, scanners that precisely measure biting forces, intraoral cameras, digital X-rays, DAGNOdent laser cavity detection, CEREC technology that creates crowns in one visit and computer imaging that shows you how you will look after any cosmetic treatment or a smile makeover.

Prepare yourself for the dental experience of your life.

THE BEST SMILE OF YOUR LIFE

Beautify It

- Mini-makeovers and extreme makeovers
- Dental face lift (we work closely with local plastic surgeons)
- Porcelain veneers for perfect front teeth (often times, no shots and no grinding)
- Composite veneers (laser sintered composite veneers)
- Teeth whitening
- Teeth straightening without braces (Invisalign®/Modern Tooth Movement)
- Cosmetic bonding

Restore It

- Dental implants
- Same-day inlays and onlays
- Dental bridges
- Porcelain crowns
- Tooth-colored fillings
- Great-looking dentures
- Comprehensive general dentistry

Save It

- Root canal therapy to help save natural teeth
- Extractions with socket preservation, bone grafting
- Complete custom implant restorations to help save your jawbones
- Diode laser for quick, painless soft-tissue recountouring, crown lengthening and gingivectomy

High-Tech It

- In-house lab with highly skilled Master lab technician • T-Scan digital articulation device • Diode lasers
- Computer imaging (before and after) that shows you the future of your smile • Carivo infrared diagnostic camera
- Computer imaging for better diagnostics and more precise treatment • Dexis platinum digital xrays
- CEREC® technology for one-day, single-visit crowns • CAD/CAM digital design • Digital low-dose X-rays
- DIAGNOdent® precision cavity detection • Omnicam digital scanner for digital impressions • Intraoral cameras

Bottom line: We can do virtually anything that enhances your smile.
